NEW FIRE EXTINGUISHER FOR THRESHER

Destructive Fires Heretofore Occurring Mostly in Northwest Reported From New York.

Explosions and fires in threshing machines, due to grain dust have been occurring in considerable numbers during the present threshing season in New York, according to reports received by the Bureau of Chemistry of the department. Such fires have been particularly destructive owing to the custom in the East of threshing in barns.

Up to this season reports have indicated that thresher explosions were confined largely to parts of Oregon, Washington, and Idaho. Because of the occurrence now of the explosions and fires in considerable numbers in a widely separated part of the country and reports in the past which have shown scattering explosions in still other sections, officials of the department feel that owners and operators of threshing machines in all parts of the country should have their attention called to the danger which may threaten their property and to the steps which have been taken by the department to make protection possible.

As a result of investigations of the explosions in threshing machines conducted by the Bureau of Chemistry and the office of Public Roads and Rural Engineering, a fire extinguisher has been developed for installation on the machines. This device operates automatically when explosions or fires occur, spraying the interior of the machine with liquid. Tests at Arlington, Va. showed the device to operate satisfactorily in every case, and recent field tests with smutty grain in eastern Washington and northern Idaho, carried out by specialists of the Office of Public Roads and Rural Engineering, have been equally successful. In these field tests with threshing machines explosions or fires occurred in the course of threshing operations and in every case were promptly extinguished by the automatic device before any damage was done to the machines. Even frayed sacking in the interior of one of the machines was not scorched.

The automatic fire extinguisher designed by the department will be patented for the benefit of the public. Working drawings from which the device may be built have been prepared and may be obtained by interested grain growers, thresher owners and operators, on application to the Office of Public Roads and Rural Engineering of the department.

The Church of Christ.

Subject of morning sermon: "The Ministry of Angels."

Evening: "The Great Change."

At the evening service, Mrs. MacDonald will give a "Chalk Talk" as a special number.

The K. S. P. will meet Monday November 12 for installation of officers. Turner MacDonald preached at the Willow creek school house, Sunday and organized a Sunday School.

A Good Position.

Can be had by any young man or young lady in the field of Railway or Commercial telegraphy. Since the passage of the eight hour law by Congress, it has created a big demand for telegraph operators. Positions paying from \$75 to \$80 per month, with good chances for advancement. It will pay you to write Railway Telegraph Inst. of Portland, Ore. for full particulars.

FARMERS—I pay the highest market price for grains of all kinds. Consult with me before selling.
W. W. SMEAD.

HEPPNER WATER PURE SAYS HEALTH OFFICER

The Heppner Light & Water Co. this week received the following letter from the State Board of Health relative to the drinking water furnished the people of Heppner by the company:

Portland, Oregon
Nov. 4, 1916.

Heppner Light & Water Co.,
Heppner, Oregon.
Gentleman:

The examination of the sample of water submitted by you November 1st showed a bacterial count of 15 per c. c., neither gas nor bacilli recovered upon incubation.

Yours very truly,
DAVID N. ROBERG,
State Health Officer.

This examination shows the presence of no typhoid or other disease germs in the Heppner drinking water.

SCHOOL NOTES.

By Supt. S. E. Notson.

At Irrigon, Prof. W. L. Suddarth and Mrs. Suddarth are again in charge of the school. The pupils are enthusiastic, and the work is moving along in good shape. Several new standard pictures have been added recently. Considerable equipment has been added to the domestic science and manual training departments. An evening meeting was held, which was well attended.

E. S. Payne teaches the school in District No. 34. The enrollment is 17. This school is properly lighted and has a good heating and ventilating equipment. A vessel of water is kept on the stove to provide moisture for the atmosphere. A new flag has been ordered. The teacher and pupils are anxious to make the school a standard school this year.

In District No. 42, Miss Margaret Lawson is the teacher. The enrollment is nine. A new stove has been purchased. It is surrounded by a jacket. This school has a good flag. It is properly lighted.

In District No. 50, Miss Ottilia Sauvain is the teacher. The pupils of this school are doing some excellent work in writing.

Miss Letitia Shewey is again at the helm in District No. 18. Sixteen pupils are enrolled. The stove is surrounded by a good jacket. Two framed pictures decorate the walls. The water is kept in a closed jar. A new sectional book case has been purchased recently. A basket supper was held recently to raise money to pay for painting the school house. The proceeds netted \$38.00. It is likely that the lighting will be improved by changing the windows to one side.

In District No. 20, Miss Frances Doherty is teaching again. The enrollment is eleven. Water is kept on the stove. A new jacket has been ordered for the stove. A new sectional bookcase has been purchased recently. The water supply is kept in a closed jar.

Services at the Federated Church.

(Sunday, Nov. 12, 1916.)

The Rev. H. A. Noyes of Unapine, Oregon will conduct preaching services at the Federated church both morning and evening at the usual hour. As Rev. Noyes comes highly recommended and is a possible candidate for this charge a full attendance of the members and friends of the church is desired. All visitors are cordially invited to attend.

There will be a cooked food sale at the Sam Hughes store next Saturday p. m., given by the Junior girls of the Southern Methodist Sunday School. The proceeds are to be used for the benefit of the church. Your patronage will be appreciated.

Get your suit cleaned and pressed before the holidays.

Mrs. WILHELMINA MACY.

The Smead-Crawford real estate agency is offering for sale a 900 acre wheat farm which this year produced \$24 per acre. The owner wishes to sell only because of poor health and he is offering a bargain to someone. The entire ranch goes for \$15 per acre or \$20 per acre on terms. The ranch is situated 4 miles from railroad and about 200 yards from a good school. Deep well of pure water and windmill. See Smead & Crawford.

See Beach & Allyn, Lexington agents for a trade or your old car for a new Ford

Wanted to Rent.

We have a client who wants to rent 900 to 1200 acres of good wheat land for 2 or 3 years. Our client has the machinery and money necessary to get the best possible results. For further information call on Smead & Crawford.

Wanted—Man with teams to haul 3000 sacks of wheat four miles to warehouse for 6 cents per sack. Write or phone W. E. Brown, Heppner.

Good work horses for sale, ranging in age from five to nine years old. See Guy Boyer or phone 27 F 32.

Five Passenger, six cylinder, 45 horsepower - - \$1170.00

Five passenger, four cylinder, 35 horsepower - - \$785.00

These prices are F. O. B. Heppner

BUICK DESIGN

BUICK VALVE-IN-HEAD POWER

The rightness of the Buick Valve-in Head motor and not the enthusiasm of its salesmen has made the Buick conspicuous for leadership.

This new four has a Buick Valve-in-Head motor (with electric starter) which develops thirty-five horse power on brake test and is so reliable for rugged service that no eulogy is necessary among "men who know Buick."

Its lines are beautiful. Finish and color are exceptional. Deep, tufted black genuine leather upholstery. Covered floor and running board, with aluminum bindings, give a trimness of appearance that is peculiarly Buick.

Body, hood, fenders and running gear are painted a glossy, long-wearing black; wheels are black with white stripes. Tires 31x4 inches.
